

STAT!Ref EvidenceAlerts

The STAT!Ref Evidence Alerts System provides e-mail delivery and access to evidence-based medicine (EBM) information from current research of over 130 premier clinical journals. The STAT!Ref Evidence Alerts System works with McMaster University (McMaster PLUS) delivering pre-rated EBM alerts that are qualified, then rated for clinical relevance and newsworthiness by a panel of practicing physicians.

Choose from a range of healthcare disciplines delivering relevant and meaningful EBM information focused on your healthcare interests.

How to set up STAT!Ref Evidence Alerts

1. Log in to STAT!Ref as your normally do.

If you can't log in to STAT!Ref, please check with your librarian.

The screenshot shows the STAT!Ref login interface. At the top left is the STAT!Ref logo, and at the top right is the word "Login". Below the logo is the heading "STAT!Ref Login". There are two input fields: "Username:" and "Password:". A red arrow points to the Username field. To the right of the Password field is a link "(Forgot?)". Below the Password field is a "Logon" button. Underneath the button are two links: "(Athens Login)" and "(Institutional Login)".

2. Click on the Preferences tab.

The screenshot shows the STAT!Ref navigation bar. On the left is the STAT!Ref logo. To its right is a search input field with a "Search" button and a link for "Advanced Search". Below the search field are four tabs: "Results", "Titles", "Resources", and "Preferences". A red arrow points to the "Preferences" tab. To the right of the tabs are links for "Home", "Help", "SR Admin", and a "LOG OFF" button.

3. Type your e-mail address in the appropriate box. Click “No, I want to create My STAT!Ref account” radio button. Then click the OK button.
