# OUR COMMITMENT TO YOU

## Customer Onboarding Guide

Welcome to TDS Health and thank you for your partnership! You have purchased our products for a reason and our team is here to understand exactly that. Your onboarding experience will be customized to your business needs as we work with you to realize objectives and craft strategies for success. We look forward to making access easy for you and your users with seamless account set-up and quick implementation and use of our products. TDS Health strives to know your internal initiatives, put actionable items in place to drive the desired behavior of your users and measure the success derived from these activities.

The elements of a successful partnership with TDS Health:

- You will be provided a dedicated Customer Engagement Manager who will serve as your point of contact during your first 30 days
- Your team will receive assistance in customizing their experience with account set-up based on a variety of access options and your unique needs
- You will receive a minimum of one customized training session focused on quick adoption, realizing value and getting you and your users set up for success
- You will have access to ongoing training throughout your time as a TDS Health customer, as additional training sessions can be scheduled during the life of your subscription
- You and your users will have access to a variety of user videos, recorded training sessions, training handouts, quick guides and more
- Our TDS Health Marketing Team can provide custom marketing materials to promote your subscription to users
- Throughout your subscription, you will receive personalized customer support by your Account Manager through phone, text, email or video conferencing

Once we finalize our partnership, our team gets to work. Onboarding is the most effective when we work together. While we take most of the burden off of your hands, customers that dedicate themselves to this process see great value and avoid challenges such as lack of adoption.

Understanding what you consider success is critical to designing the action plan we will both follow in the next 30 days and beyond. Agreeing on desired goals and the required resources is important to maximizing the value from your investment with TDS Health. We look forward to a strong adoption of our products and we are here to support you!
